Test Case #	Test Case Description	Precondition	Test Procedure	Test Inputs	Expected Result	Actual Result	Test Result
	Change User Details						
TC_001	Check whether user can update details	User must login and on change details interface	Enter the details and click update button	All the required fields in form	Show Successful message	Show Successful message	Pass
TC_002	Check whether required fields validation work.	User must login and on change details interface	Click on Update button		Show relevant message indicating required fields	Show relevant message indicating required fields	Pass
TC_003	Check whether phone number is validated	User must login and on change details interface	Click on Update button		Show relevant message	Show relevant message	Pass
TC_004	Check whether link to go to update account tab works	User must login and on change details interface	Click on the tab		Direct to the account settings page	Direct to the account settings page	Pass
TC_005	Check whether city dropdown change when location drop down changed	User must login and on change details interface	Change the selection of the location drop down		City drop down changes according to the selection	City drop down changes according to the selection	Pass

	Change current password						
TC_006	Check whether user can update password	User must login and on change details interface	Enter the details and click update button	All the required fields in form	Show Successful message	Show Successful message	Pass
TC_007	Check whether required fields validation work.	User must login and on change details interface	Click on Update button		Show relevant message indicating required fields	Show relevant message indicating required fields	Pass
TC_008	Check whether password fields are encrypted	User must login and on change details interface	Input passwords		Display passwords in the encrypted way	Display passwords in the encrypted way	Pass

TC_009	Check whether current password is valid	User must login and on change details interface	Click on Update button		Show relevant message indicating valid or invalid	Show relevant message indicating valid or invalid	Pass
TC_010	Check whether new password and reentered passwords match	User must login and on change details interface	Type reenter passwords		Show relevant message indicating matches or not	Show relevant message indicating matches or not	Pass

	Approve advertisement						
TC_011	Click on the approve advertisement link work	Admin must login and on approve interface	Click on the link		Direct to the approve advertisement page	Direct to the approve advertisement page	Pass
TC_012	Check whether approve and reject buttons work	Admin must login and on approve interface	Click on approve or reject buttons		Advertisement is approved or rejected and removed from the list	Advertisement is approved or rejected and removed from the list	Pass
TC_013	Check whether multiple selection of advertisements and approval works	Admin must login and on approve interface	Check the checkboxes in more than one advertisement and click approve or reject		Multiple advertisements are approved or rejected and removed from the list	Multiple advertisements are approved or rejected and removed from the list	Pass
TC_014	Check whether more details page loaded when image clicked	Admin must login and on approve interface	Click on the thumbnail image		Loading the picture modal and redirecting to the more details page	Loading the picture modal and redirecting to the more details page	Pass
TC_015	Check whether a email is sent to the user automatically	Admin must login and on approve interface	Approve or reject advertisements		An email is sent to the user who has posted the advertisement	An email is sent to the user who has posted the advertisement	Pass

	Manage posted advertisements						
TC_016	Click on the manage advertisement tab work	User must login to the system	Click on the tab		Show manage advertisements interface	Show manage advertisements interface	Pass
TC_017	Check whether details about one advertisement is shown	User must login to the system	Click on ad image or title		Display details about specific advertisement	Display details about specific advertisement	Pass
TC_018	Check whether edit ad link works	User must login to the system	Click on the edit ad link		Redirecting to the edit advertisement page with details about selected advertisement	Redirecting to the edit ad page with ad details	Pass
TC_019	Check whether delete advertisement button works	User must login to the system	Click the delete advertisement button		A confirmation message is shown and deleted or canceled	A confirmation message is shown and deleted or canceled	Pass
TC_020	Edit and advertisement	User must login to the system	Click on edit advertisement button	All the required fields in form	A successful message is shown	A successful message is shown	Pass
	Contact seller through email						
TC_021	Check whether email modal is loaded	One ad must be viewed	Click on reply by email button		Show reply by email modal	Show reply by email modal	Pass
TC_022	Check whether a user can send an email	One ad must be viewed	Click the send email button	All the required fields in form	An email is sent to the seller	An email is sent to the seller	Pass
TC_023	Check whether required fields validation work.	One ad must be viewed	Click the send email button		Show relevant message	Show relevant message	Pass
TC_024	Check whether clear button works	One ad must be viewed	Click on the clear button		Clear the text boxes	Clear the text boxes	Pass

	View related advertisements						
TC_025	Check whether image link work	Home page must be loaded	Click on the image	View details about single advertisement	Display details about specific advertisement	Show project details interface	Pass
TC_026	Check whether image slider works	Home page must be loaded	Click on the slider arrow		More related advertisements are shown	More related advertisements are shown	Pass
	Provide feedbacks to seller						
TC_027	Check whether feedback tab link works	One ad must be viewed	Click on the feedbacks tab		Feedback page is loaded	Feedback page is loaded	Pass
TC_028	Check whether previous feedbacks are shown	Feedback view must be viewed	Click on the feedbacks tab		Display previous feedbacks	Display previous feedbacks	Pass
TC_029	Check whether feedback is posted	Feedback view must be viewed	Click on the feedback button	All the required fields in form	Show Successful message	Show Successful message	Pass
	Manage registered users						
TC_030	Check whether manage users link work	Admin must login and on manage user interface	Click on the link		Show assign manager interface	Show assign manager interface	Pass
TC_031	Check whether a specific user is searched	Admin must login and on manage user interface	Type a user name in the text box	user name	Relevant users are listed according to the user name typed	Relevant users are listed according to the user name typed	Pass
TC_032	Check whether more details about a specific user is shown	Admin must login and on manage user interface	Click on more details button		More details about a specific seller is shown	More details about a specific seller is shown	Pass
TC_033	Check whether a user is deleted	Admin must login and on manage user interface	Click on the delete button		Show Successful message	Show Successful message	Pass

Test Case #	Test Case Description	Precondition	Test Procedure	Test Inputs	Expected Result	Actual Result	Test Result
	Post an advertisement						
TC_034	Check whether user can add all form details and validate	user should login and on the post interface	Go to post form -> Fill the form -> Click on Check button	All the required fields in form	show check again interface	show check again interface	Pass
TC_035	Check whether user can see the details posted on show check again interface	user should login and on the check again interface	Go to post form -> Fill the form -> Click on Check button		Show the details user input on posted form	Show the details user input on posted form	Pass
TC_036	Check whether required fields validation work.	user should login and on the post interface	Click on Check button		Show which fields are required for add a project.	Show which fields are required for add a project.	Pass
TC_037	Check whether Location dropdown list and City dropdown list fill from database.	user should login and on the post interface	Go to post form -> Click on Location dropdown and click on City dropdown		Show Location list and City list	Show Location list and City list	Pass
TC_038	Check whether phone number on the form	user should login and on the post interface	Go to post form		Show the phone number	Show the phone number	Pass

	Edit advertisement before posting						
TC_039	Check whether the Change advertisement details are filed according to the user post	user should login and on the check again interface	Click on edit button		Show user posted data	Show user posted data	Pass
TC_040	Check whether user can edit the data on the filed	user should login and on the check again interface	Click on edit button and change the filed value Click update		Show check again interface and change data	Show check again interface and change data	Pass

TC_041	Check whether Location dropdown list and City dropdown list fill from database.	user should login and on the check again interface	Click on edit button		Show Location list and City list	Show Location list and City list	Pass
TC_042	Check whether update button work	user should login and on the check again interface	Click on edit button and Click upload		Show check again interface	Show check again interface	Pass

	Multiple image upload						
TC_043	Check whether the user can get to the multiple upload interface	user should login and on the check again interface	Click upload more image button		Show multiple image upload interface	Show multiple image upload interface	Pass
TC_044	Check whether user can upload the image	user should login and on the multiple image upload interface	Click brows button->Click upload button		show upload image	show upload image	Pass

	Insert new category details						
TC_045	Check whether the category form is load	user should login and on the post interface	Click category dropdown select the type		Show category interface	Show category interface	Pass
TC_046	Check whether the category drop down list working	user should login and on the post interface	Click category dropdown select the type		view drop down list	view drop down list	Pass

	Compare two advertisement						
TC_047	Check whether one advertisement add to the compare	user should on the one advertisement interface	Click Add to compare		Redirect to the same subcategory and category	Redirect to the same subcategory and category	Pass
TC_048	Check whether two advertisement add to	user should on the one	Click Add to compare		Show compare interface	Show compare interface	Pass

	the compare	advertisement interface					
TC_049	Check whether the details shown two advertisement.	user should on the compare advertisement			Show the advertisement image and details	Show the advertisement image and details.	Pass
TC_050	Check whether exit button is working	user should on the compare advertisement	Click exit		Redirect to the all advertisement view	Redirect to the all advertisement view	Pass

	View advertisement details						
TC_051	Check whether all advertisement display	user should on the home page	Click view ad		Redirect to the all advertisement view	Redirect to the all advertisement view	Pass
TC_052	Check whether the one ad view is load	user should on all advertisement details	Click on one advertisement		Redirect to one advertisement interface	Redirect to one advertisement interface.	Pass
TC_053	Check whether image is load correct position	user should on all advertisement details	Click on one advertisement		show the selected image	show the selected image	Pass

Test Case #	Test Case Description	Test Procedure	Test Inputs	Expected Result	Actual Result	Test Result
	Sign up a User					
TC_054	Check whether a user can sign up to the website successfully.	Enter the details and click Sign up button	All the required fields in form	Show Successful message	Show Successful message	Pass
TC_055	Check whether email required field validation works.	Leave out email in sign up form and click on Sign up button		Show relevant message indicating required fields	Show relevant message indicating required fields	Pass
TC_056	Check whether password required field's validation works.	Leave out password in sign up form and click on Sign up button		Show relevant message indicating required fields	Show relevant message indicating required fields	Pass
TC_057	Check whether confirm password required field validation works.	Leave out confirm password in sign up form and click on Sign up button		Show relevant message indicating required fields	Show relevant message indicating required fields	Pass
TC_058	Check whether the email is validated	Enter an invalid email and click Sign up button		Show relevant message indicating that the email is invalid	Show relevant message indicating that the email is invalid	Pass
TC_059	Check whether the password contains 4 or more characters	Enter password where the password length is less than 4 characters and click Sign up button		Show relevant message indicating that the password length is too short	Show relevant message indicating that the password length is too short	Pass
TC_060	Check whether both password and confirm password fields match each other	Enter different inputs to password and confirm password fields and click sign up button.		Show relevant message indicating that the password and confirm password does not match	Show relevant message indicating that the password and confirm password does not match	Pass

	Account Activation by Email Confirmation					
TC_061	Check whether a user can activate their user account by confirming their email address	After signing up the user has to go to their email and click on the "Confirmation Register" link In the confirmation email sent by the website	Click on the "Confirmation Register" link	Show Successful message	Show Successful message	Pass
TC_062	Activate account using an invalid link.	change the link's token value (last section of the URI) and go to that in a browser	Changed "Confirmation Register"	Show relevant message indicating that the user has failed to register	Show relevant message indicating that the user has failed to register	Pass

	Login					
TC_063	Check whether a signed up user can login to the system by providing a valid email and password	Insert the email and the password in the relevant fields and click Login button	A valid Email and password	The user is successfully logged in to the system	The user is successfully logged in to the system	Pass
TC_064	Check whether the email is validated before login	Insert an email which was not used to sign up to the system and click Login button	An email which was not used to sign up to the system	Show relevant message indicating that email or password did not match	Show relevant message indicating that email or password did not match	Pass
TC_065	Check whether the password is validated before login	Insert an email which was used to sign up to the system and Insert an invalid password click Login button	An email which was used to sign up to the system and an invalid password	Show relevant message indicating that email or password did not match	Show relevant message indicating that email or password did not match	Pass

TC_066	Check whether the email and password both are validated at once	Insert an email which was not used to sign up to the system and Insert an invalid password click Login button	An email which was not used to sign up to the system and an invalid password	Show relevant message indicating that email or password did not match	Show relevant message indicating that email or password did not match	Pass
--------	---	---	--	---	---	------

	Resetting the password					
TC_067	Check whether a signed up user can reset their password	Enter an email which was used to sign up to the system click on reset button	An email which was used to sign up to the system	An email is sent to the user's email address with new password	An email is sent to the user's email address with new password	Pass
TC_068	Check whether the email is validated before resetting the password	Enter an email which was not used to sign up to the system click on reset button	An email which was not used to sign up	Show relevant message indicating that user was not found	Show relevant message indicating that user was not found	Pass

	Filter advertisements					
TC_069	Check whether advertisement filter works with search key word	Insert a key word in search field	keyword	Advertisements are filtered based on the keyword.	Advertisements are filtered based on the keyword.	Pass
TC_070	Check whether advertisement filter works with a selected category	Select a category in the advertisement filter form.	Category	Advertisements are filtered based on the category	Advertisements are filtered based on the category	Pass
TC_071	Check whether advertisement filter works with a selected category	Select a location in the advertisement filter form.	Location	Advertisements are filtered based on the location	Advertisements are filtered based on the location	Pass

TC_072	Check whether advertisement Sorting works with Newest first	Select newest in Sort	Newest	Advertisements are sorted based on the date newest first	Advertisements are sorted based on the date newest first	Pass
TC_073	Check whether advertisement Sorting works with Oldest first	Select oldest in Sort	Oldest	Advertisements are sorted based on the date oldest first	Advertisements are sorted based on the date oldest first	Pass
TC_074	Check whether advertisement Sorting works with Price high to low	Select Price high to low in Sort	Price high to low	Advertisements are sorted based on the price high to low	Advertisements are sorted based on the price high to low	Pass
TC_075	Check whether advertisement Sorting works with Price low to high	Select Price low to high in Sort	Price low to high	Advertisements are sorted based on the price low to high	Advertisements are sorted based on the price low to high	Pass
TC_076	Check whether advertisement Sorting works with popularity (Most popular)	Select Most popular in Sort	Most popular	Advertisements are sorted based on the popularity high to low	Advertisements are sorted based on the popularity high to low	Pass
TC_077	Check whether advertisement Sorting works with popularity (Least popular)	Select Least popular in Sort	Least popular	Advertisements are sorted based on the popularity low to high	Advertisements are sorted based on the popularity low to high	Pass
TC_078	Check whether advertisement filter works with a valid price range	Input a valid price range in price fields	Rs.10 to Rs.10000	Advertisements are filtered based on the price range	Advertisements are filtered based on the price range	Pass
TC_079	Check whether advertisement filter works with an invalid price range	Input an invalid price range in price fields	Rs.10000 to Rs.10	Show relevant message indicating no advertisements are found	Show relevant message indicating no advertisements are found	Pass

	Auto complete search field					
TC_080	Check whether the auto complete works in search field in home page	Type any letter in search field	a	Display all the matching words based on their popularity on the website	Display all the matching words based on their popularity on the website	Pass
TC_081	Check whether the auto complete does not show any word which is not used to perform a search in the system	Type any word in search field	apple	No matching words are shown in the list	No matching words are shown in the list	Pass

Test Case #	Test Case Description	Precondition	Test Procedure	Test Inputs	Expected Result	Actual Result	Test Result
	Post Comments						
TC_082	Check whether 'Post your comment' button is worked	Single advertisement detail page should be loaded.	Click 'Post your comment' button		Commenting area is appear	Commenting area is appear	Pass
TC_083	Check whether required fields validation work.		Type on the text box	All the required fields in form	Pop-up error message and highlighted the border of the textbox with red	Pop-up error message and highlighted the border of the textbox with red	Pass
TC_084	Check whether 'Submit' button is worked	User should logged in to the web site	Click 'Submit' button		Post the comment.	Post the comment.	Pass
TC_085	Check whether 'Clear' button is worked		Click 'Clear' button		Clear the text area.	Clear the text area.	Pass
TC_086	Check whether 'Remove' button is worked	User should logged in to the web site	Click 'Remove' button		Delete the comment.	Delete the comment.	Pass

	Add to favorite						
TC_087	Check whether 'Add to favorite' button is worked	User should logged in to the web site	Click 'Add to favorite' button		The advertisement is added to the favorite list.	The advertisement is added to the favorite list.	Pass
TC_088	Check whether 'Remove from favorites' button is worked		Click 'Remove from favorites' button		Pop-up a message asking 'cancel' or 'ok'	Pop-up a message asking 'cancel' or 'ok'	Pass

TC_089	Check whether image link is worked		Click image link		Redirect to the single advertisement details	Redirect to the single advertisement details	Pass
TC_090	Check whether 'ok' button on the pop-up message is worked		Click 'ok' button on the pop-up message		Advertisement is deleted from the favorite list.	Advertisement is deleted from the favorite list.	Pass

	Share advertisements via social networks						
TC_091	Check whether 'Share' button is worked		Click 'Share' button		Sharing area is open.	Sharing area is open.	Pass
TC_092	Check whether social network link is worked.		Click social network link.		Open the sharing window	Open the sharing window	Pass
TC_093	Check whether 'Close' button is worked.		Click 'Close' button		Close the sharing windows	Close the sharing windows	Pass
TC_094	Check whether email link is worked		Email sharing area is open		Required fields will displayed	Required fields will displayed	Pass

	View the product location of the ad using Google map						
TC_095	Check whether 'View in map' button is worked		Click 'View in map' button		Map view is open.	Map view is open.	Pass
TC_096	Check whether 'Back' button is worked		Click 'Back' button		Redirect to the single advertisement details page.	Redirect to the single advertisement details page.	Pass

	Rate the seller						
TC_097	Check whether 'Rate the seller' button is worked		Click 'Rate the seller' button		Rate seller modal is open.	Rate seller modal is open.	Pass
TC_098	Check whether click on stars is worked.		Click on stars.		Change the color of stars.	Change the color of stars.	Pass
TC_099	Check whether 'Rate' button is worked.		Click 'Rate' button		Rating value is inserted.	Rating value is inserted.	Pass
TC_100	Check whether 'Close' button is worked.		Click 'Close' button		Close rate window.	Close rate window.	Pass

	Report an advertisement						
TC_101	Check whether 'Report' button is worked.		Click 'Report' button		Advertisement report area is open.	Advertisement report area is open.	Pass
TC_102	Check whether required fields validation work.		Type on the text box	All the required fields in form	Pop-up error message and highlighted the border of the textbox with red	Pop-up error message and highlighted the border of the textbox with red	Pass
TC_103	Check whether required fields validation work.		Click on 'Save' button		Show which fields are required for Save.	Show which fields are required for Save.	Pass
TC_104	Check whether user can provide a report	Report modal is open	Click 'Submit' button	All the required fields in form	Show Successful message	Show Successful message	Pass

TC_105	Check whether user can get assign member tab view		Go to Manage Projects -> Go to Recent Project Tab-> Search project -> Click on the list -> Click Assign member tab	Search word	Show assign member interface	Show assign member interface	Pass
TC_106	Check whether required fields validation work.		Click on 'Assign' button	All the required fields in form	Show which fields are required for Assign.	Show which fields are required for Assign.	Pass
TC_107	Check whether user can view member details		Go to Assign member -> Click 'view' button		Show all the members according to the specific project	Show all the members according to the specific project	Pass
